

Dear Parents & Students,

I would firstly like to take this opportunity to introduce myself to you as the new contractor for the school canteen at Holy Cross College.

Several years ago Rose Giorgio was an experienced Sydney based restaurateur who attended a school function for her daughter to discover that there was simply a lack of quality. Being so passionate about food and wanting the best for the students a specific business was developed.

The success of the Total Canteen Solutions business is based on these initial values of providing students with quality food to ensure they deliver their best.

Total Canteen Solutions is a proudly owned Australian business and is family owned by Rose Giorgio and Catherine Albertini.

Our success in schools has come from the quality of food we deliver since many school canteens are run by people with limited food experience. Rose Giorgio is responsible for the menus and coaching of the staff to ensure food is prepared to the Total Canteen Solutions standards.

Total Canteen Solutions only source quality products offering a range of foods that are low in fat, low in GI and low in sodium. All meals being made DAILY and on premises.

If any special dietary requirements are required please do not hesitate to contact Rose who is now located at Holy Cross College school canteen.

We look forward to working with you.

Kind Regards

Rose Giorgio
